It's finally here! **NEW MATTE FOUNDATION** from bareMinerals!

This new foundation is going to revolutionize the mineral makeup world! It's 100% pure bareMinerals beauty with the power of RareMinerals Active Soil Complex. This means you have the natural light feeling of the normal bareMinerals foundation but without that shiny sheen. The only complaint anyone ever had about the original foundation was that it sometimes accentuated lines, bumps and textured areas because the minerals reflected light. This new Matte foundation not only minimizes the appearance of those textured areas, but it also minimizes the flow of oil and has *more* active minerals to produce faster cell turnover! It's amazing! They've even added a Click-Lock-Go sifter for a cleaner application. Less mess is always a good thing! This is a much better formula for those oily skin types that constantly battle acne breakouts. We've all tried it, love it! Come on in and see for yourself. We will have the original foundation and the new Matte foundation side by side for you to compare.

If you ever felt like your bareMinerals foundation was too pearly or shiny, you've got to try this!

Another bareMinerals Breakthrough

Introducing the new Flawless Definition Mascara. The first smudge-free, paraben-free conditioning mascara is a smash hit! The flawless definition brush has the perfect fine-tooth bristles that give you the ultimate control of your mascara. This is perfect for those of you who have sensitivity to eye make up. We all absolutely love this new mascara and we know you will too!

Need better lashes for that new mascara? Don't forget about Latisse, the first ever prescription strength eyelash treatment that makes your lashes longer, thicker, fuller, and darker.

"I've had people actually comment on how great my eyes look lately, and they didn't even know I was using Latisse! I have the best eyelashes I've ever had, and I will never go without Latisse!"

-Amy Hannahs-

(formerly known as the girl with no eyelashes)

JEANS & Jewels

Flourish Skin & Laser is sponsoring a new event in Longview and this is not one to miss! We are teaming up with **LifeWorks** and 21 other local businesses to bring a night of fun and entertainment to our community. This event, Jeans & Jewels is Lifeworks' inaugural fundraiser to benefit individuals with autism and their families. Lifeworks has a new location at **906 New York** in Longview, which has inspired the theme for the event. We are bringing New York to you! Come and see the sites of Little Italy, Coney Island, the Jewelry District, the Subway station, the Fashion District, and a New York taxi stand where you can win prizes and have a night out on the town! Stop by the Cosmo bar and visit the Flourish girls, experience the Scotch tasting bar with Walstead Mertsching or win a bottle of wine from Propel Insurance. Dress casual in your jeans and jewels and come ready to have a night full of fun, music, food and drinks. Tickets are \$45 and are available at Flourish! Stop in and buy your tickets with us and get a voucher for a FREE COSMO!

Please come join us for this amazing event and help Lifeworks support families touched by autism in our community!

Sept. 26th at 6:30

Do you notice more brown spots after summer?

Clean up those brown spots and pigmentation with a series of Limelight photofacials. You can wear the strongest SPF in the world, but that doesn't stop the damage you already have from coming out during the summer. Most of those pigmentation spots are created from sun damage when you were young, and they take years to rise up to the surface. That's why each summer you probably notice more and more spots. We can lighten and remove those pesky spots with a simple laser procedure that targets only the dark areas. By removing that discoloration your skin also appears more even and smooth. You had your fun in the sun, now it's time to clean it up!
