

FLOURISH Skin & Laser Newsletter

FLOURISH Meets FACEBOOK

Want to keep up on everything going on here at Flourish? We have now joined the FaceBook network, where you can get connected with us about all the newest in skin care, BareMinerals, and laser treatments. We will be updating our page frequently with new products and sporadic sales! You can ask us questions and stay in the loop about upcoming events and everything that's going on in the skin and laser world. People and businesses are all staying connected through networking sites like FaceBook, so we thought "Why can't we?" Brynna is setting up our page right now and she will be on it constantly giving you updates, downloading photos on new products, treatments and the fun times we have here in our office together!

Please look us up at www.facebook.com under **Flourish SkinLaser**

A.G.E. Eye Complex

Skin Ceuticals has introduced a new eye cream that we are all in love with. It's called AGE Eye Complex. For those of you who already use the AGE Interrupter moisturizer, you know what we're talking about. It feels like satin on your skin! This eye cream is specially formulated for mature skin to improve the creping, sagging appearance caused by intrinsic aging process such as glycation, as well as alleviate puffiness and dark circles specific to the delicate eye area. AGE Eye complex retails for \$85, but check out the Flourish features for a special deal!

Vibraderm that Rough Skin!

You may notice that your skin feels rough and more textured during these hot summer days. This can be because you're not drinking enough water in this heat and also because you have a build up of the "stratum corneum" layer of skin. This is the topmost layer of skin cells that look like tiny microscopic corn flakes. They tend to build up on the surface (especially when you're trying to get tan) which then leads to rough leathery looking skin. Fortunately this is an easy thing to improve. First, stop tanning your face. . . it's bad for you! Second, have a periodic Vibraderm treatment to exfoliate the topmost dead skin cells. This will leave you with skin as smooth as a baby's bottom!

New From Bare Escentuals Mineral Makeup

- **Refillable Buffing Brush** - It's finally here! The most wonderful invention from Bare Escentuals yet. This extremely soft brush has a refillable compartment for you to add your personal foundation color or mineral. The brush only releases as much powder as you want when you twist it open, then locks to close with another twist. The best part is, the brush head is removable for easy cleaning! You can now take your make up with you when you're taking off on those summer get-aways.
- **Face Fashion "Natural Muse"** - This kit makes you an instant insider on the latest in beauty. The fashion-forward palette of creamy, 100% pure bareMinerals eye and cheek shades, plus a luxurious bareMinerals Natural Lipgloss, gives you all the confidence of a fashion icon.
- **Heal + Conceal** - This kit combines the "zit-zapping" power of the RareMinerals Blemish Therapy and the concealing powers of bareMinerals Bisque SPF20 multi-tasking concealer to heal and conceal those pesky blemishes and troublesome acne. It also includes 2 mini brushes and a travel bag for your purse.
- **Hydrating Mineral Veil** - This is the ultimate finishing touch for thirsty skin. This unique, water-based 100% pure bareMinerals Hydrating Mineral Veil infuses thirsty skin with a cooling softness and subtly brightens for the ultimate, translucent finishing touch.
